

I am a 28 years old architect with two years work experience, born and raised in Almaty, Kazakhstan but currently living in Turin. I have a Master in Architecture Heritage Preservation And Enhancement at Polytechnic University of Turin. I believe in the duty we have with others and the power of architecture as a medium of change in society. I am deeply interested in every subject related to **sustainable architecture, interior design, graphic design and communication**. I am passionate about art, furniture design, innovative materials. My **curious attitude, my strong ambition and my inclination for team working** are my greatest traits, plus some other skills explained below.
