Curriculum Vitae

Camilla Nicolini

Architect - 06/04/1997, Selangor, Malaysia - Italian nationality - Resident in Rome - Currently living and working in Turin - Tel. + 39 3341447086 - E-mail: camillanicolini.arch@gmail.com

About me:

My academic journey in Architecture has taken me through various cities, fueling my curiosity about urban phenomena and my belief that architecture is a powerful social tool. Throughout my studies, I've been particularly drawn to the exploration of interstitial spaces—those often-overlooked areas that embody permeability, accessibility, and inclusiveness. This interest has shaped both my academic work and my professional trajectory. In my current role as a Strategy and Innovation Associate at Carlo Ratti Associati, I have expanded my understanding of urban-making, shifting from theory to practice. Working at the forefront of an international firm focused on innovation, I've learned the value of early involvement in projects and the importance of collaboration across diverse teams. This experience has deepened my appreciation for the complexities of the built environment and the role of multidisciplinary dialogue in shaping meaningful solutions. Through this, I've developed a strong adaptability and a collaborative mindset, always eager to listen, learn, and grow in the dynamic field of architecture and urbanism.
