FRANCESCA FILANNINO

WORK EXPERIENCE

Sep 2022 - Present Junior Architect at TRA Architetti (Via Mantova, 36, Torino (TO), Italy)

- Drafting Graphic documents (plans, sections, elevations, technological details, demolitions and constructions) for feasibility study of reusing buildings, construction permits and competitions, 3D modelling with sketch-up;
- Functional and distribution schemes and layouts (offices, apartments, living labs, classrooms, parking etc.), schemes for construction and economical phases;
- Historical archive research, geometric and photographic cognitive survey of building;
- Building and regulatory checks;
- Project presentations for clients using indesign;
- Restoration and conservative renovation of a residential building of 1927: from the feasibility study to the executive project and works management. Holding the position of **assistant construction manager**: construction site reports, technical details, estimated metric calculation, interrelation with construction company and engineers;
- Space preliminary concept of reuse of the guards courtyard for the international competition of "Cavallerizza Reale di Torino" with Lacaton&Vassal's groupage;
- Technical-economic feasibility project of reusing of "Corte delle Guardie of Cavallerizza Reale di Torino" with Lacaton&Vassal's groupage.

Mar 2022 - Sep 2022 Stage at MAB Arquitectura (Corso Sempione, 51, Milan (MI), Italy)

- 3D model on Revit;
- AOH - Affordable Offsite Housing: first architectural considerations on building social residential housing with prefabricated methods.
- Drafting of the documents for the permission to build (PdC) for a residential building complex in Brescia using the Revit software;
- Flexible layouts of furniture of the S.I.A. (supplementary services to living) through floor plans, and drafting of presentations with a list of supplies and costs.
- Layout proposals for public car parks and relative presentation of the proposals;
- Plan and fronts of finishing, plan of electrical system for a mixed used building.

Sep 2020 - Apr 2021 Part-time collaboration at ADA Studio (Via San Marco, 34, Milan (MI), Italy)

- Detailed areas of a private house in Russia: spa relax area, gym and pool;
- Diagram for a residential building complex in Milan;
- Illustrative technical report of residential project;
- Drawing boards and documents for Art. 55 R.E.: Fronts, plan, and sections and illustrative technical report;
- Design of external common green spaces;
- Functional diagrams of the project;
- Diagrams for the Historical analysis of the project area;
- Computation of window/floor surface ratio of apartments.

Nov 2018 - Feb 2019 Stage post Bachelor of Science at Paloma Architects (Via Giuseppe Sacchi, 12, Milan (MI), Italy)

- Brief of internal ordinary maintenance works composed by Historical - Artistic report, Photographic Record and Technical Report of building process;
- Outline proposal and brief of project composed by plans, sections, mood board of materials and furnitures and 3D views of the outline proposal;
- Preliminary project and final proposal composed by plans and sections describing the building process and the additions to the existing: plan of existing condition, plan of demolition and construction, plan of outline proposal, plan of finishing and flooring, plan of false ceiling, plan of electrical system;
- 3D Modelling on SketchUp.

May - June 2018 University Internship at Corrado Serafini Architects (Via Paolo Diacono, 6, Milan (MI), Italy)

INTERESTS

Enjoy visual art, photography and also sports particularly swimming. Love to travel and experience different cultures. Amateur photographer of buildings, nature, landscapes, and specially sunset over the sea.
